LMU KLINIKUM

Dear Colleagues,

On behalf of the Organizing Committee, it is our great honor and pleasure to welcome you to the International Stroke Genetics Consortium (ISGC) workshop, to be held at the St.-Vinzenz-Haus des Klinikums der Ludwig-Maximilians-Universität (LMU) in the city center of Munich on April 24-April 27, 2024.

The ISGC Workshop returns to Munich for the 2nd time. 15 years ago, Munich hosted the 3rd workshop, back when the community was still small but rapidly expanding.

The workshop will begin with the ISGC Working Group pre-meetings on Wednesday, April 24th, and the full-day programming on Thursday, April 25th and Friday, April 26th during which you will have the opportunity to attend several Keynote Lectures and Scientific Sessions featuring original science presented by renowned experts in different scientific fields.

In addition to the scientific program, we have planned a range of social activities and networking events that will allow you to explore Munich's rich history and culture while forging new connections with your fellow attendees. We hope you take advantage of these opportunities to foster collaborations and friendships that will last long beyond the conference.

You will soon find the link to the 30th Workshop registration at the ISGC website (www.strokegenetics.org) soon, and we recommend registering as soon as possible to benefit from early registration rates and to secure a dinner reservation at a spectacular location in Munich.

We wish you an engaging, informative, and enjoyable experience at the International Stroke Genetics Consortium, and we look forward to the exciting developments that will emerge from our collective efforts.

We look forward to seeing you in Munich in 2024!

Sincerely,

Rainer Malik & Martin Dichgans

Your 30th ISGC Workshop Co-Hosts

Martin Dichgans

Rainer Malik
